Notes

A follow-up inspection was conducted to check for compliance of violation #23 as observed on inspection report dated 09/16/2024.

The violation has been abated with reasonable compliance.

– Muzna Rauf

Observations and Corrective Actions *

Observations and Corrective Actions

Public Comments: Violation #23 for gnats above the floor drains and in the back food storage room and fruit flies next to the Lemon Grass kitchen has been corrected with reasonable compliance. The facility is currently using Ecolab Pathways Drain treatment daily to clean the floor drains, which is preventing gnat larvae from thriving. Back doors to the facility were closed at the time of the re-inspection. Management currently has two wall sconce fly light traps placed on the wall at the Den, more fly traps have been ordered to place in the facility to catch any flies that may enter the food prep or storage area.

Inspector: Muzna Rauf

Status: Compliant
